

Use of CellerateRX Surgical Hydrolyzed Collagen Powder on Thigh Wound from Gunshot

T. William Axelrad, M.D., PhD

Derek Hinds, M.D.

Patient History / Accident

A 21-year-old male sustained a self-inflicted accidental gunshot wound to his right thigh

Treatment

He was treated with CellerateRX Surgical powder, placement of tension sutures, and wound vac therapy during his initial surgical procedure

Designed by Nature

Activated By Science

Treatment Two / Results

Four days later the patient returned to the OR for a secondary surgery and ultimate wound closure. The wound went on to heal uneventfully.
